

A **HOME INSPECTION** TOOL DESIGNED WITH **HOMEOWNERS** IN MIND

PryzmiQ was designed to simplify home inspections, addressing the challenges of traditional field inspections and virtual home inspection tools. Its no-app-required, intuitive design makes the process straightforward and convenient.

A SMARTER, MORE EFFICIENT INSPECTION

FAST, SIMPLE, AND DESIGNED FOR HOMEOWNERS

PryzmiQ streamlines self-inspections so you can complete the process in under 45 minutes-without confusion or unnecessary steps.

NO APP DOWNLOAD NEEDED

You don't need to install anything. PRYZMIQ works entirely through a secure web link, making the process quick and accessible from any device.

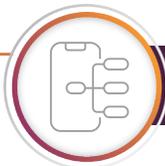

CONVENIENT AND SAFE

Move through your home step by step without the hassle of climbing, crawling, or squeezing into tight spaces. A logical, room-by-room flow ensures a smooth and hassle-free experience.

LET SOMEONE ELSE HANDLE THE INSPECTION

If you're unavailable or own a second home, you can send your secure inspection link to a trusted person.

COMPLETE AT YOUR OWN PACE

Unlike other self-inspection tools, PRYZMIQ automatically saves your photos and progress in real-time. If you need to stop midway, you can pick up where you left off instead of starting over.
